Not only an outstanding bullet resistant vest but this covert model also provides excellent stab, needle and blunt trauma protection. Based on our own operational frontline experience and extensive research, we can only stress that an impact based assault is a more likely and frequent type of attack than an assault involving an edged weapon or firearm.

Features & Benefits
- Ultra-thin, lightweight and flexible
- Adjustable Velcro shoulder straps
- Tested and certified at the Beschussamt Melrichstadt, Germany
- Manufactured under strictly ISO 9001:2008 quality controlled conditions
- Performance unaffected by moisture

Who Is This Product Suitable For?
- Executive Protection Specialists
- Law Enforcement Officers
- Homeland Security Professionals

Material
- European high performance ballistic material
- Waterproof and breathable Cordura® 180
- Ground-breaking temperature controlling Outlast® space technology, making it the ideal choice of armour for hot and humid environments

Bullet Protection
- NIJ Level IIIA+ (NIJ Std 0101.04) ballistic protection
- Protection from Tokarev Ball 7.62 x 25mm and Makarov 9 x 18mm
- Excellent protection against more aggressive handgun ammunition

Stab Protection
- 10 Joules

Blunt Trauma Protection
- High performance 0.85mm trauma liner reduces blunt trauma effect

Needle Protection
- High level of protection (4.4 Joules - VPAM KDIW 2004)

Sizes
- S - 6XL

Weight
- 1.6KG

Thickness
- 6.5mm

Colour
- Black, white or sand

Place of Manufacture
- UK

Replacement Cover
- 700110

Also available in different colours and bespoke designs

T: 516-817-1666  E: info@bodyarmorusa.com
This outstanding bullet resistant vest has not only passed the most up to date National Institute of Justice Standard 0101.06, but also offers protection from full contact shots. Too often front line professionals are being shot by their own firearm from extremely close range. Understanding this particular risk was crucial during the development phase of our new high performance body armour.

**Features & Benefits**
- Protection against full contact shots
- Protection against TASER®
- Ultra-thin, lightweight and flexible
- Adjustable Velcro shoulder straps
- Manufactured under strictly ISO 9001:2008 quality controlled conditions
- Performance unaffected by moisture

**WHO IS THIS PRODUCT SUITABLE FOR?**
- Private Security Details (PSD/PMC/PSC)
- Law Enforcement Officers (LEO)
- Executive/Diplomatic Protection Professionals
- Homeland Security Agencies
- Customs and Border Protection
- Prisoner Transportation
- Immigration Control
- Airport Securities

**Material**
- Highly advanced ultra-resilient European ballistic material
- Waterproof and breathable Cordura® 180
- Ground-breaking temperature controlling Outlast® space technology, making it the ideal choice of armour for hot and humid environments

**Ballistic Protection**
- NIJ Level IIIA (NIJ Std 0101.06) ballistic protection
- Protection against full contact shots
- Protection from Tokarev Ball 7.62 x 25mm and Makarov 9 x 18mm
- Protection against more aggressive handgun ammunition
- Protection against TASER®

**Blunt Trauma Protection**
- High performance foam layer effectively reduces blunt force trauma

**Sizes**
- S - 6XL

**Thickness**
- 9.5mm

**Aerial Density**
- 5.73 kg/m²

**Weight of Ballistic Panels**
- 1.66kg

**Colour**

Not only an effective stab resistant vest but this 5mm covert model also provides an excellent level of needle and blunt trauma protection. Based on our own operational frontline experience and extensive research, we can only stress that an impact based assault is a more likely and frequent type of attack than an assault involving an edged weapon or firearm.
Not only an extremely effective stab resistant vest but this NIJ Level III covert model also provides a truly outstanding level of protection from blunt impact weapons and blunt force trauma injuries.

**Features & Benefits**
- Outstanding level of protection from blunt force trauma
- Extremely tough and durable
- Front opening means full securing of the garment is extremely simple and fast
- World’s best performance/cost ratio
- Unlimited shelf life
- Comfortably worn – exceptional manoeuvrability

**Protection From The Following Threats:**
- Blunt impact weapons - including hammers, clubs, snooker balls, gym weights
- High impact cutting weapons – including axes and machetes
- Makeshift edged weapons, shanks and razor blades
- Heavy assault, including kicks and punches
- Blunt trauma injury associated with all the above

**Who Is This Product Suitable For?**
- CERT (Correctional Emergency Response Teams)
- NTRG (National Tactical Response Groups)
- Tactical Support Units
- Prison Riot Teams
- Anyone operating within an environment known for criminal activities, drugs, alcohol misuse and disturbances, e.g. detention centres, immigration removal centre etc.
- Anyone dealing with high risk individuals, such as violent or aggressive members of the public, drug users or dealers, or other with a known history of serious violence.
- Individuals or teams that secure and protect property, events and people where violent incidents occur frequently.

**Material**
- **Inside**: Rigid body moulded panels made out of glass/ceramic composites providing an exceptionally high level of certified protection against stabbing weapons
- **Outer Cover**: High quality covert cover made out of Cordura® – features a high-tech spacer fabric providing the highest level of comfort when worn in hot and humid environments

**Stab/ Spike Protection**
- NIJ 0115.00 Level III
  - Tested Energy Level 1: 43 Joules - 7mm Maximum Penetration
  - Tested Energy Level 2: 65 Joules - 20mm Maximum Penetration

**Blunt Trauma Protection**
- Truly exceptional and previously unmatched level of protection from a kick, punch or blow - or blunt objects such as piece of iron, chair, table, bricks, etc.

**Needle Protection**
- 100% protection from hypodermic and tattoo needles

**Sizes**
- L - 4XL

**Weight**
- 3.5kg

**Panel Thickness**
- 7mm + foam backing

**Areal Density**
- 12.5kg (27.8lbs) per sqm

**Clothing Care**
- Durable machine washable covers

**Colour**
- Black or white

**Place of Manufacture**
- UK

**Replacement Cover**
- 700101

Product: PPSS KR1 Overt Stab Resistant Vest (5mm)
Model #: 400105
Protection Level: HOSDB KR1 Stab + Blunt Trauma + Needle Protection

Not only an effective stab resistant vest but this 5mm overt model also provides an excellent level of needle and blunt trauma protection. Based on our own operational frontline experience and extensive research, we can only stress that an impact based assault is a more likely and frequent type of attack than an assault involving an edged weapon or firearm.

**Features & Benefits**
- Lightweight
- Shields the spine, ribs and all vital organs
- Comfortably worn
- Easily put on and taken off within seconds
- Indefinite lifespan (compared to Kevlar’s 3-5 year lifespan)
- Front zip fastening

**Who Is This Product Suitable For?**
- Anyone dealing with high risk individuals, such as potentially violent or aggressive members of the public, drug users or dealers
- Those operating in geographical areas known for criminal activities, drugs, alcohol misuse and disturbances
- Lone workers frequently faced with frustrated and disappointed customers
- Home or office visitors that enforce laws and regulations, police the system or deliver bad news
- Individuals or teams that secure and protect property, events and people

**Material**
- **Inside**: 5mm thin polycarbonate sheets, moulded to the upper body shape
- **Cover**: High quality covert cover made out of Cordura® – features a high-tech spacer fabric providing the highest level of comfort when worn in hot and humid environments
  - Adjustable Velcro shoulder & side straps
  - Full front YKK zip for ease of removing and putting on the vest

**Stab Protection**
Tested and certified to HOSDB Knife Resistance Standard KR1

**Blunt Trauma Protection**
Excellent level of protection from a kick, punch or blow – or blunt objects such as piece of iron, chair, table, bricks, etc.

**Needle Protection**
Excellent level of protection from narrower blades & hypodermic needles

**Tested Energy Levels**
- **Level 1**: 24 Joules - 7mm Maximum Penetration
- **Level 2**: 36 Joules - 20mm Maximum Penetration

**Sizes**
XS - 4XL

**Weight**
2.3KG (Size L)

**Clothing Care**
Protective fillers easily removed so the outer cover can be machine washed

**Colour**
Black – additional colours available subject to minimum order quantity

**Place of Manufacture**
UK

**Replacement Cover**
700102

-Anyone dealing with high risk individuals, such as violent or aggressive members of the public, drug users or dealers, or other with a known history of serious violence.
- Individuals or teams that secure and protect property, events and people where violent incidents occur frequently.

**Material**
- **Inside**
  - Rigid body moulded panels made out of glass/ceramic composites providing an exceptionally high level of certified protection against stabbing weapons
- **Outer Cover**
  - Covers made out of military spec Cordura® 1000D - features a high-tech spacer fabric providing the highest level of comfort when worn in hot and humid environments
  - Full front YKK zip for ease of removing and putting on the vest

**Stab/Spike Protection**
- NIJ 0115.00 Level III
  - Tested Energy Level 1: 43 Joules - 7mm Maximum Penetration
  - Tested Energy Level 2: 65 Joules - 20mm Maximum Penetration

**Blunt Trauma Protection**
- Truly exceptional and previously unmatched level of protection from a kick, punch or blow - or blunt objects such as piece of iron, chair, table, bricks, etc.

**Needle Protection**
- 100% protection from hypodermic and tattoo needles

**Sizes**
- L - 4XL

**Weight**
- 3.5kg

**Panel Thickness**
- 7mm + foam backing

**Areal Density**
- 12.5kg (27.8lbs) per sqm

**Clothing Care**
- Durable machine washable covers

**Colour**
- Black

**Place of Manufacture**
- UK

**Replacement Cover**
- 700102

**Also Available in Different Colours and Bespoke Designs**

Not only an effective stab resistant vest but this 5mm overt model also provides excellent needle and blunt trauma protection. Based on our own operational frontline experience and extensive research, we can only stress that an impact based assault is a more likely and frequent type of attack than an assault involving an edged weapon or firearm.

Features & Benefits

- Lightweight
- Shields the spine, ribs and all vital organs
- Comfortably worn
- Easily put on and taken off within seconds
- Indefinite lifespan (compared to Kevlar’s 3-5 year lifespan)

Who Is This Product Suitable For?

- Anyone dealing with high risk individuals, such as potentially violent or aggressive members of the public, drug users or dealers
- Those operating in geographical areas known for criminal activities, drugs, alcohol misuse and disturbances
- Lone workers frequently faced with frustrated and disappointed customers
- Home or office visitors that enforce laws and regulations, police the system or deliver bad news
- Individuals or teams that secure and protect property, events and people

Material

- Inside
  - 5mm thin polycarbonate sheets, moulded to the upper body shape
- Cover
  - Highly durable nylon fabric
  - Adjustable shoulder and side straps
  - High-tech spacer fabric providing the highest level of comfort when worn in hot and humid environments
  - Latest encapsulated reflective tape
  - Full front YKK zip for ease of removing and putting on the vest
  - Complies with BS EN 471:2003

Stab Protection

- Tested and certified to HOSDB Knife Resistance Standard KR1

Blunt Trauma Protection

- Excellent level of protection from a kick, punch or blow – or blunt objects such as piece of iron, chair, table, bricks, etc.

Needle Protection

- Excellent level of protection from narrower blades & hypodermic needles

Tested Energy Level 1

- 24 Joules - 7mm Maximum Penetration

Tested Energy Level 2

- 36 Joules - 20mm Maximum Penetration

Sizes

- XS - 4XL

Weight

- 2.3KG (Size L)

Clothing Care

- Protective fillers easily removed so the outer cover can be machine washed

Colour

- High visibility yellow

Place of Manufacture

- UK

Replacement Cover

- 700103

Also available in different colours and bespoke designs

PPSS ‘Tabard Style’ Hi Viz Stab Resistant Vest are a ‘non-confrontational’ type of body armour - providing exceptional protection against edged weapons, hypodermic needles and blunt force trauma.

Features & Benefits
- Non-confrontational design
- Unlimited shelf life (compared to 3-5 years life span of Kevlar® made body armour)
- Outstanding protection from blunt force trauma (usually suffered following a kick, punch or blow from a blunt object)
- Extremely lightweight (2.3kg)
- Ultra-thin (5mm)
- Home Office (HOSDB) certified

Who Is This Product Suitable For?
- Facility Management
- Civil Enforcement
- Public Transport
- Any sector wanting to look non-confrontational

Material
Inside
Smm thin polycarbonate sheets, moulded to the upper body shape
Incorporates impact protective foam comfort layer

Cover
Water resistant overt cover made out of 100% high performance breathable coated polyester. Features a high tech spacer fabric providing the highest level of comfort when worn in hot and humid environments.

Stab Protection
Tested and certified to HOSDB Knife Resistance Standard KR1

Blunt Trauma Protection
Excellent level of protection from a kick, punch or blow – or blunt objects such as piece of iron, chair, table, bricks, etc.

Needle Protection
Excellent level of protection from narrower blades & hypodermic needles

Tested Energy Level 1 24 Joules - 7mm Maximum Penetration
Tested Energy Level 2 36 Joules - 20mm Maximum Penetration

Sizes
XS - 4XL

Weight
2.3KG (Size L)

Clothing Care
Protective fillers can be easily removed so the outer cover can be machine washable

PPSS have specially designed the 'Cell Extraction Vest' to protect professionals who have to deal with major incidents, riots, cell extractions, mass searches or serious disturbances in correctional facilities and prisons.

### Features & Benefits
- Extremely tough and durable
- Body moulded collar parts provide extensive and complete wrap-around neck protection
- Front opening means full securing of the garment is extremely simple and fast
- The world’s best performance/cost ratio
- Unlimited shelf life
- Weight of around 7kg/16lbs for the complete Cell Extraction Vest
- Comfortably worn – exceptional manoeuvrability
- Includes Molle webbing over the greatest possible area (front and back)

### Protection From The Following Threats:
- Blunt impact weapons – including hammers, clubs, bricks, snooker balls, gym weights
- High impact cutting weapons – including axes and machetes
- Makeshift edged weapons, shanks and razor blades
- Heavy assault, including kicks and punches
- Blunt trauma injury associated with all the above

### Who Is This Product Suitable For?
- CERT (Correctional Emergency Response Teams)
- NTRG (National Tactical Response Groups)
- Tactical Support Units
- Prison Riot Teams

### Material

**Inside**
Rigid body moulded panels made out of glass/ceramic composites providing an exceptionally high level of certified protection against stabbing weapons

**Outer Cover**
Covers made out of military spec Cordura® 1000D and include Molle webbing over the greatest possible area of the front and back

### Stab/Spike Protection
- **NU 0115.00 Level III**
- **Tested Energy Level 1** 43 Joules - 7mm Maximum Penetration
- **Tested Energy Level 2** 65 Joules - 20mm Maximum Penetration

### Blunt Trauma Protection
Truly exceptional and previously unmatched level of protection from a kick, punch or blow - or blunt objects such as piece of iron, chair, table, bricks, etc.

### Needle Protection
Truly exceptional level of protection from narrower blades & hypodermic needles

### Sizes
L - 4XL

Why our stab vests offer blunt trauma protection?

Robert Kaiser, our CEO answers this question: "We use 5mm thin sheets of polycarbonate, molded to the upper body’s shape, for our UK Home Office KR1 certified stab proof vests, resulting in an innovative product with a unique infinite lifespan and unrivalled protection from hypodermics needles, and blunt trauma injuries caused by punches, kicks or blows."

"After having gained extensive experience within the world of high risk security operations in countries around the world, and after conducting a number of research projects we determined that an impact based assault is a much more likely event than an attack involving an edged weapon or even firearm."

All of our stab proof vests offer impact protection on a completely new level. This is unrivalled, ground breaking and it is certainly leading the way.

PPSS Slash Resistant Clothing

Many of our high performance slash resistant garments have already been supplied to numerous prison officers, homeland security and public transport professionals – as well as mental and social health care professionals.

The outstanding fabric being used for our garments is our very own Cut-Tex® PRO, developed and manufactured only by PPSS here in the UK.

Cut-Tex® PRO is offering ISO 13997: 1999 Blade Cut Resistance Level 5 (the highest possible), EN 388:2003 Blade Cut Resistance Level 5 (the highest possible) and ASTM F-1790 Blade Cut Resistance Level 4.

In addition, we can also confirm that Cut-Tex® PRO is offering EN 388:2003 Tear Resistance Level 4 (the highest possible) and Abrasion Resistance Level 4 (the highest level possible).

Apart from supplying you with our following slash resistant products, PPSS is also able to design, manufacture and supply you with bespoke slash resistant garments – based on your operational risks, threats and duties.

Cut-Tex® PRO Performance Charts:

- **Cut Resistance (Test 1)** - ISO 13997:1999 Blade Cut Resistance Levels 1-5:
  - 0 1 2 3 4 5
    - +27.8 Newtons

- **Cut Resistance (Test 2)** - ASTM F-1790 Blade Cut Resistance Levels 1-5:
  - 0 1 2 3 4 5
    - 2580 Grams Force

- **Tear Resistance** - EN 388:2003 Tear Resistance Levels 1-4:
  - 0 1 2 3 4
    - 398.5 Newtons

- **Abrasion Resistance** - EN 388:2003 Abrasion Resistance Levels 1-4:
  - 0 1 2 3 4
    - +8000 Cycles

- **Fabric Weight** - GSM (Grams per square metre)
  - 447 GSM

Product: PPSS Slash Resistant Combat Shirt
Model #: 100115

World’s First Slash Resistant Combat Shirts

PPSS Slash Resistant UBAC Shirts are manufactured using Cut-Tex® PRO, our very own high performance cut resistant fabric. Cut-Tex® PRO acts as an effective shield and protects areas often unguarded by common body armour e.g. key arteries from laceration and subsequent rapid blood loss.

Features & Benefits

- Offering comfortable yet effective cut protection to the radial artery, brachial artery, carotid artery and axillary artery whilst wearing body armour. Laceration of either of these arteries can lead to rapid blood loss and potential death.
- Two upper arm pockets (for small notepad and pens) with Velcro for rank patches, blood patches or other attachments
- Machine washable
- Thumb loops to keep sleeves in place
- 100% Latex free

Who Is This Product Suitable For?

Professionals working within these sectors:
- Law Enforcement
- Prison Service
- Immigration
- Customs
- Border Control
- Private Security
- Civil Enforcement
- High Secure Hospitals

PPSS Slash Resistant Turtleneck Sweatshirts are manufactured using Cut-Tex® PRO, our ground-breaking material that acts as a shield and protects vulnerable areas of the human body.

Features & Benefits
- Cut-Tex® PRO used on the entire garment providing excellent cut and slash resistance
- High neck prevents neck and vertebral arteries from being exposed
- Thumbhole sleeves prevent the wrist and radial artery from being exposed
- 100% Latex free

Who Is This Product Suitable For?
Professionals working within these sectors:
- Mental Health Care
- Law Enforcement
- Prison Service
- Private Security
- Industry

Blade Cut Resistance
- EN 388:2003 Level 5 (the highest possible)
- ISO 13997:1999 Level 5 (the highest possible)
- ASTM F 1790-05 Level 4

Abrasion Resistance
- EN 388:2003 Level 4 (the highest possible)

Tear Resistance
- EN 388:2003 Level 4 (the highest possible)

Dimensional Stability Test
Achieved excellent results

CE Marking
Cat II PPE Directive

Sizes
S - 3XL

Clothing Care
Machine washable up to 40° Celsius

Colour
Grey or White

Place of Manufacture
EU

PPSS Slash Resistant Neck Guards are manufactured using Cut-Tex® PRO, our very own high performance cut resistant fabric, which acts as an effective shield and protects areas often unguarded by common body armour.

Features & benefits
- Offering comfortable yet effective cut protection to the carotid artery, an area even exposed whilst wearing any type of body armour. Laceration of this artery can lead to rapid blood loss and potential death.
- Folding down collar
- Machine washable
- 100% Latex free

Who is this product suitable for?
Professionals working within these sectors:
- Law Enforcement
- Prison Service
- Immigration
- Customs
- Border Control
- Private Security
- Civil Enforcement
- Mental Health Care
- High Secure Hospitals

Slash Resistant Gloves
WITH OPTIONAL NEEDLE RESISTANCE
PPSS Slash Resistant Gloves are manufactured using our very own ultra high cut resistant fabric Cut-Tex® PRO.

**Please note:** all PPSS Slash Resistant Gloves are available with or without EN 388:2003 puncture resistance level 4 (the highest possible). Puncture resistance is of the greatest importance to those frontline professionals who frequently come in contact with hypodermic needles.

PPSS Slash Resistant Gloves are now being worn by police and prison officers; as well as private security and mental health care professionals around the world.

Please view our extensive range of PPSS Slash Resistant Gloves - but please note that we are more than happy to design, develop and manufacture specialised, bespoke Slash Resistant Gloves, based on your individual needs, specifications and operational duties and risks.

As a Slash Resistant Gloves manufacturer, PPSS is continually looking for new and ingenious combinations of materials to achieve the greatest cut protection possible, whilst still allowing you, the wearer, enough dexterity to perform all of your required activities.

However, we feel that Cut-Tex® PRO, our very own high performance fabric is the ultimate choice for all of our protective gloves.

How to Find Your Glove Size

Before ordering PPSS Slash Resistant Gloves, please measure your hands carefully using this guide to find your correct glove size.

Use the longest ‘finger length’ or ‘hand width’ measurement to find your size. If your longest measurement falls between sizes, order the largest size.

1. Find your hand width

Wrap a tailor’s measuring tape around your dominant hand just below the knuckles, excluding your thumb, and make a fist. This is your ‘hand width’.

2016 Price List – Slash Resistant Gloves

PPSS Cut Resistant Gloves

As a cut resistant gloves manufacturer PPSS is continually looking for new and ingenious combinations of materials to achieve the greatest cut protection possible, whilst still allowing the wearer enough dexterity to perform all of your required activities.

We feel that Cut-Tex® PRO, our very own high performance fabric is the ultimate choice for all of our protective gloves.

PPSS cut resistant gloves are made using Cut-Tex® PRO as an inner lining, offering ISO 13997:1999 Blade Cut Resistance Level 5 (the highest possible), EN 388:2003 Blade Cut Resistance Level 5 (the highest possible) and ASTM F-1790 Blade Cut Resistance Level 4

Please also note the all our gloves can be produced with additional EN 388:2003 puncture resistance level 4 (the highest possible). Puncture resistance is indeed of greatest importance to those frontline professionals who come frequently in contact with hypodermic needles

Anti-Spit Masks
PPSS Anti-Spit Masks

Technical Features

Anti-Spit Masks have been designed to effectively help protect homeland security and other frontline professionals (correctional officers and paramedics) from Hepatitis C and other infectious diseases, transmitted by a combatant or violent person spitting saliva or infected blood in their face.

- Simple and fast to deploy
- Developed through intensive field testing
- Disposable
- Compact
- Individually packed and labelled
- Allows you to observe your suspect’s face
- Excellent visibility
- Safe, secure and lightweight

Bullet Resistant Shield
Product: Multi-Threat Shield (MTS)  
Model: MTS  
Protection Level: NIJ Level IIIA (Level III with Optional Rifle Plate Insert)  

$899.00 - Contact Us For Special Pricing

FEATURES

Discreet. Low profile design looks like a laptop case, enabling the shield to be carried covertly in any environment.

For Use By All. First responders, executive/dignitary protection, home/family defense, workplace safety, private security.

Lightweight. At only 8 lbs. the MTSTM is the lightest ballistic Level IIIA shield on the market.

Rapid Deployment. A quick snap of the wrist provides a 3-foot long blanket of protection.

Affordable. 20% - 40% less expensive than other Level IIIA shields.

Versatile. From law enforcement to home defense, from a bullet to a punch, the Savior’s proprietary design and material offers an extremely versatile protection tool.

Level IIIA Protection. Defeats multiple impacts from a wide range of handgun, shotgun, and pistol caliber sub-machine gun ammunitions.

One-piece design. Seamless design provides complete protection – no gaps between panels.

Up-Armor Option. Front plate carrier pocket will hold the custom MTSTM Level III rifle plate.

Multi-Threat. Provides protection against firearms, edged weapons, blunt objects, & punches/kicks.

Covert-access Utility Pouch. Expandable pouch for equipment (handgun, Taser, first aid, tablet, keys, etc.) with interior Velcro loop for attachments (sold separately). Includes zippered side entry panel for covert access.

Ultra Portable. Folded soft material and lightweight design measures only 12” x 17.5”.

Hands-free Control. Non-slip shoulder strap allows use of both hands while maintaining control of the shield.

Ambidextrous. Multiple carrier and deployments positions with both right and left hand.

Durable. Rugged 1680-Denier water and abrasion resistant lightweight ballistic nylon triple stitch carrier.

ID Field. Large Velcro loop field for identification patches (POLICE, SECURITY, etc.) when shield is in deployed position. Training. Comprehensive MTSTM techniques & tactics operator and instructor certification courses are available.

SPECIFICATIONS

-Model No.: MTS-010

-Color: Black

-Protection Level: NIJ Level IIIA (Level III with optional Rifle Plate Insert).

-MTSTM was tested by a National Institute of Justice approved laboratory for ballistic resistance in accordance with Modified/Abbreviated NIJ 0108.01, Threat Level IIIA. The results were “No Penetration,” and therefore meets the requirements of Level IIIA.

-Total Weight: 8 Lbs.

-Closed Position Size: 12” L x 17.5” W x 1.75” D

-Open Position Size: 36.5” L x 17.5” W x 0.58” D

-Total Ballistic Coverage: 639 sq. in.

-Ballistic Components: One-Piece (no gap) Laminated Kevlar®

-Carrier Material: 1680 Denier Ballistic Nylon, Water Repellent

-Blunt Force Inserts: 11” x 17” 0.16” Kydex® & 11” x 17” .25” Shock Pad

-Strap: 1” webbing molded into non-slip soft shoulder pad. Durable, tri-glide adjustable buckles. Strong, injection molded swivel snap hooks (spring-loaded with unique locking tabs for added security).
221b Tactical
Maxx-Dri Vest & Guardian Gloves

BodyArmorUSA.com
221BTactical
ELIMINATE THE IMPOSSIBLE
Product: 221B Tactical Maxx-Dri Vest Version 2.0  
Model: MDRI

- Maxx-Dri Vest is designed in the U.S.A. by an active duty patrol officer in New Jersey, USA who uses his everyday!
- Worn by people in law enforcement in each of the 50 United States and 17 other countries
- Wearing a body armor vest now becomes more bearable for the user
  - Over 15,000 sold worldwide and currently in use
- Maxx-Dri reduces a person’s body heat by as much as 17 degrees Fahrenheit
- Special 3-D Mesh fabric offers high-elasticity and high-density unlike traditional textiles which are flat. Our spacer fabric is 3-dimensional

The Maxx-Dri Vest weighs only 225 grams (about 8 ozs.) and users soon forget they are even wearing it!

Features and Benefits:
* Better hygiene for the user
* Elimination of dangerous skin infections caused by heat rash
* Mitigates unpleasant body odors
* Preserves the integrity of one’s body armor
* Prolongs the life of body armor
* Cushioning for the user making armor feel less heavy
* Less sweat means drier shirts keeping people cooler
* EASY TO WASH AND QUICK TO DRY: It is made of 100% polyester which does not absorb dirt or moisture like a cotton tee shirt. The unique middle "hollow" structure enables water to pass through easily and dry quickly
Product: 221B Tactical Guardian Gloves  
Model: GGLOV

**AVAILABLE FOR $49.99/PAIR**

When it comes to protecting your hands while on the job you should NEVER settle! Whether you’re searching a subject, searching a vehicle, at the scene of a MV crash where extrication is needed or making a dynamic entry....you want the MAXXIMUM protection for your hands!

The Guardian Gloves, designed specifically by our Founder (Officer Suresh Madhavan), give you the ULTIMATE in hand protection while helping to maintain dexterity and comfort. Because gloves that protect your hands are great....but if they don't allow for dexterity which actually allows you to FEEL what you are touching....what's the point?

**Features:**
- 360 degree Spectra Lining protects not only palms BUT ALSO the back and sides of the hand
- Armor Skin on the palm and finger tips
- Smart-Touch index finger and thumb for smart phone/touch-screen capability
- Injected Rubber (High Density) on the back of the hands to protect fingers, knuckles and the back of hands
- Special blend of materials to provide a "custom feeling" fit

**Benefits:**
- Superior cut protection
- Spectra Lining offers 360 degree LEVEL 5 cut protection
- Excellent durability and abrasion resistance....for LONG LASTING use
- Spectra Level 5 cut protection EVEN WHEN THE GLOVES ARE WET (something most "cut resistant" gloves DO NOT offer)
- Lightweight comfort AND breathability
- High Density Injected Rubber on the back of the hands offer MAXXIMUM protection while allowing great flexion and mobility while maintaining a low profile (unlike hard, plastic knuckle gloves)
- No need to remove your gloves to use your smartphone or touch-screen device
- Superior blend and placement of materials provide for a fit that makes this glove fit like a batting glove....NOT a bulky, chunky search glove
- Armor Skin on the palms and fingers give you superior grip under all conditions....wet or dry

If protecting your hands and taking care of you health and safety is of the utmost importance....The Guardian Gloves are for YOU!

ARMOR for your HANDS! Order them TODAY!

Baltic Innovation Holding
Firepen
FIREPEN — a pocket-sized innovative metal cutting product

No access to electricity, acetylene or oxygen, but you need to cut or weld metal? FIREPEN is your solution!

FIREPEN is the latest scientific development with no analogues in the world. Its unique chemical composition makes it possible to cut through fittings, steel ropes, grills, pipes and other metal products in a matter of seconds. All you need to do is light a FIREPEN with a match.

With combustion temperature of 5072 °F, start up in less than 5 seconds and no special training required, FIREPEN is indispensable in extreme conditions and for emergency evacuation.

It’s very useful in inaccessible areas; during works of elimination of consequences of natural and industrial disasters; in absence of electricity; when electric or gas welding equipment is not possible to use. FIREPEN works under water!

**Specifications**
- Burning time — 20 seconds.
- Weight — up to 0.22 lbs.
- Length — 11.8 in.
- Diameter— 0.6 in.
- Combustion temperature — 5072 °F
- Ignition temperature — 2372 °F

FIREPEN can cut up to 16-18 mm thick material.

**Storage**
Keep your FIREPEN away from open flames, in a dry place and original package. Avoid the possibility of mechanical damage.

Storage temperatures: between +41 °F and +86 °F; humidity: below 65%.

**Package**
Each FIREPEN packed in one plastic case. The cardboard box consists of 100 pieces, weighing 22 lbs.

**FIREPEN launch**
The “start” of FIREPEN requires a temperature of 2372°F, which provides a special match. Match is included in each package rolled in a special protection material.

**Safety**
FIREPEN is explosion-proof and fireproof! It cannot be launched by «simple» fire. While working with the product, protect your hands from sparks with canvas gloves and your eyes with safety glasses (dark sunglasses can be used).
Who is this product suitable for?

- Law Enforcement Officers
- Corrections Personnel

Shell

FIBERGLASS shell with multiple layer impact absorbing materials for increased strength to weight ratio. For additional coverage, shell will have a 1 1/2” dip in the back starting at the ear. Three unique shell sizes, small/medium, large & extra large. Shell edge protected with tough molded metal core scuff-proof edging. High gloss black paint is protected by a clear urethane hardcoat, scratch resistant coating.

Liner

Polyurethane semi-resilient energy absorbing foam throughout inside of helmet. Liner material to be unaffected by temperatures ranging from -14°F to +122°F.

Inner Shell

Full inner shell of ABS molded plastic to seal off the liner and to protect the liner from solvents, hair oils and body perspiration preventing indiscriminate deterioration of liner. The .030” thick ABS inner shell shall be cleanable with mild soap solution.

Suspension

Interior sizing accomplished by inner cushion pads. Anti-microbial, moisture wicking, replaceable Cushion Pad sizing system allows for size adjustment and maximum air flow ventilation and increased cooling. The Cushion Pads furnished with each helmet shall be in 1/4” & 3/8” thickness to allow for proper sizing. All interior pads are easily removed for replacement, adjustment or cleaning.

Retention

Sewn Naugahyde covering tubular webbing chin strap and nape strap shaped as a “Y” to allow hearing and ventilation shall be riveted to the outer shell. An ECHO Quick Release Buckle allows for quickly fastening and unfastening of the chin strap. A replaceable comfort throat sleeve and nape sleeve is provided. Nape strap assists retention of the helmet on the head when both straps are properly fastened. Harness shall have Velcro for attachment of Ear Muffs, Foul Weather Adapter and Communication Mounts as required.

Riot Faceshield

Maximum coverage and protection, injection molded high-impact polycarbonate faceshield. Optical grade .100 inches thick. Easily adapts to Gas Mask usage. The faceshield allows full 90° rotation with a cam-action pivot, incorporating full up to full down with a positive lock in either position. Faceshield is held firmly in place and replaceable by means of metal aluminum band, spring steel clip and thumb screws. The faceshield incorporates a neoprene seal to provide a liquid seal between the faceshield and the helmet. The edges of the Faceshield shall be a smooth rounded edge. Faceshields are replaceable in the field and meet or exceed the requirements of Z87.1, VESC-8 and NIJ 0104.02.
**Product:** SEER
**Model:** S1610
**Protection Level:** MEETS OR EXCEEDS NIJ-STD-0104.02

---

**Shell**
FIBERGLASS partial coverage shell with multiple layer impact absorbing materials. Ear and Neck Protector permanently attached to shell. Snap attachments for Riot Control Faceshield. Three shell sizes, small/medium, large & extra large. Dull matte finish.

**Liner**
Semi-resilient energy absorbing polyurethane foam material throughout inside of helmet.

**Inner Shell**
Full inner shell of ABS molded plastic to seal off the liner and to protect the liner from solvents, hair oils and body perspiration. The ABS inner shell shall be cleanable with mild soap solution.

**Suspension**
Perforated replaceable Cushion Pad sizing system allows for size adjustment and maximum air flow ventilation and increased cooling. The Cushion Pads furnished with each helmet shall be in ¼” & 3/8” thickness to allow for proper sizing. Easily removed for replacement, adjustment or cleaning. The FG Model incorporates large Stabilizing Pads as the sizing system.

**Retention**
Chin strap permanently riveted to the shell. A Quick Release Buckle or Snap Fastening system allows for rapid deployment and removal of the helmet.

**Riot Faceshield**
Maximum coverage and protection, injection molded polycarbonate faceshield. Optical grade .100 inches thick. The faceshield shall allow full 90° rotation. Faceshield is held in place and replaceable by means of thumb screws or elastic strap. The edges of the Faceshield shall be a smooth rounded edge.

HELMET REPAIR PROGRAM

SEER CORPORATION has established a complete helmet repair program for all Law Enforcement Helmets manufactured by SEER Corp. Should Departments choose to rebuild helmets, change colors or uniforms, the changes can be made economically by making use of our refurbishing program. Refurbishing can be done on any Helmet less than 3 years old. With safety being our number one concern, All Helmets should be replaced every 3 to 5 years. (Repair or repaint by anyone other than SEER CORPORATION voids all warranties.) Prices subject to change without notice. Shipping & Handling charges apply.

Quotations and evaluation samples are available to agencies reviewing their equipment needs. Any law enforcement customer needing this service may telephone or write to our Law Enforcement Products Division for further information.
